TIPS for MOBILE BANKING SECURITY

1

LOCK YOUR PHONE

If your phone has the option to create a password use it

2

SECURITY APPS

Download a security application to protect your mobile device

3

SECURE APP STORES

Download all applications from a secure and well known app store

4

BEWARE OF PHISHING

Look out for websites, emails, and apps, they might be imposters

5

AVOID PUBLIC WIFI

Don't access your bank account while using a public network

6

DISABLE BLUETOOTH

When not in use always turn off your bluetooth

7

PROTECT NUMBERS

Avoid entering mobile numbers into a website unless completely necessary

8

LOG OFF COMPLETELY

After managing your account log out of a site or app completely and close it

9

DELETE TEXTS

Delete any texts or emails from your device containing account information

10

OFFICIAL BANK APPS

Whenever possible use the application created by your bank

+1

STAY CURRENT

Be sure to keep your applications and OS up to date
